The canal boat tour travels along downtown Richmond's historic Canal Walk and reviews centuries of Richmond's history, from Powhatan's Chiefdom to the first commercially successful electric streetcar in the world. Come learn of the city shaped by the James, that in turn shaped the river itself.

Canal History Walking Tour (NO FEE)

Andrew McRoberts will share his "Richmond history stories" about Richmond's canals and the people who used them, from the 18th to late 19th centuries. The stories will range from the first visit to the falls of the James by Captains Christopher Newport and John Smith, to George Washington's vision to connect Virginia to the west via canals, and to the age of railroads. The stories will also cover the use of canals to power mills and ultimately generate electric power for streetlights, trolleys, and industry. The approximately 90-minute walking tour will leave the LGA registration desk and tour parts of the downtown riverfront before returning to the hotel.

Cycling With Dan (NO FEE)
